

Make a Chinese lantern!

Step 1: Fold a piece of coloured A4 paper in half lengthways. Make straight cuts along the paper (but don't cut all the way across).

Step 2: Decorate the top and bottom edges. You can draw pictures, or cut and stick the animals from the Chinese calendar below, or write a happy new year message: Xin nian kuai le!

Step 3: Glue the edges of the lantern together. Then glue a strip of paper to the top to make a handle. Display!
