# Stay safe online: tips for parents

Top tips

Read our top tips to help you and your family stay safe online.

- Ask your child about the websites they like and about what they like doing online.

- Talk to your child about privacy settings and how to report or block.

- Discuss what is OK to share online and what is not OK to share and why.

- Decide how you want to set parental controls for the family.

- Talk about when it is OK to download files, games or apps.

- Decide if you want a family email address.

- Talk about which age-related games your child can and can't play.

- Discuss time limits for online activities.
